

Charles Darwin University Press presents...

Democratic Governance in Timor-Leste is an important collection of articles that provides highly pertinent insights into the current dilemmas of the government and people of the new republic to Australia's north. It gives voice to East Timorese commentators as well as to Australian and other international scholars. The volume explores the necessity to come to terms with the past in order to move on to a better future. It considers the role of the state and parliament in the new democracy while seeking to set these against the cultural and social practices of the people at whom development is aimed. It also examines the role of the agencies that have sought to assist in the country's transformation from a colonised to a post-colonial society with a sound economic future.

Foreword by Deputy Prime Minister of Timor-Leste, Dr. José Luis Guterres
